

K-LOVE serves me, my family and the local community by providing a positive music alternative to the garbage that floods our airwaves. It gives me as a single mother something for my family to listen to that does not include those subjects not appropriate for children which get into almost every other radio station in our community. If K-LOVE were displaced by an LPFM broadcaster, my confidence in what my children were listening to would be lost. The service that K-LOVE provides to this community is in the public's best interest as they provide an alternative to what the majority of the FM stations bring to our families. Our community should be allowed to keep that choice open to them.
